

iDesign Software Update

Date	Thursday, 11 July 2013
Subject	iDesign Software Fixes and Enhancements

The purpose of this Update is to announce an update to the iDesign Card Software. Refer to the earlier update note on new features for v6.x.

Please refer to below table for version details.

Version	Corrected Problems
6.1.1	- To simplify deactivation process
6.1.2	- To simplify activation screen with 4 boxes concept
	- To re-package installer without running Access Engine directly but rather to be installed as separate program, found under the installed Support sub folder.

The latest new release either for demo or retail version, both is available for download at www.idesign.sg/downloads/iDesign6.x/setup.exe

If you have any questions, please contact me at hweelee@idesign.sg or Main: +65 62882112.

Thanks.

Regards
Hwee Lee Tay
